March 13, 2009

The Washington Maryland Delaware Service Station and Automotive Repair Association has had the opportunity to discuss the proposed legislation introduced by Delegate Ali – HB 920. Although many of our members do sell these products specified in the bill, a member survey came up with a large majority having no objection to Delegate Ali’s efforts. Our Board of Directors voted to fully support the objective of restricting the sales of these over-the-counter sexual stimulants. Please feel free to contact me with any questions or concerns.

Sincerely,

Paul Fiore

Director of Government Affairs
